WE DEDICATE

We proudly and gratefully dedicate the 1965 Maple Leaf to our First Grade teacher, Mrs. Vera Ward, and our Second Grade teacher, Mrs. Marie Ward. We would like to express our appreciation to them for their 40 years each of dedicated teaching. Their understanding, patience, and wisdom have suited them well for their roles as elementary teachers.

FOREWORD

Editor - Iris Pafford

As your days slip away and are lost in the sands of time, old memories began to fade. As you look back on the days you spent at S.G.H.S. may your memory be rekindled by the words and pictures of this yearbook. If this is true then the Maple Leaf Staff will have indeed accomplished its objective.

The primary aim of the Future Farmers of America is to develop Agricultural leadership, cooperation, and citizenship.

Each member receives instruction in agriculture, farm shop and parliamentary procedure. Members also carry out a supervised farming program.

One of our many activities is a yearly Parent-Son Banquet. Making gates, truck racks, and many other shop constructions are a few of our many projects.

OUR MOTTO:

Learning to do
Doing to learn
Earning to live
Living to serve

The Future Homemakers of America is the national organization of pupils studying homemaking in junior and senior high schools of the United States and Territories.

CREED

We are the Future Homemakers of America.
We face the future with warm courage and high hope.

For we have the clear consciousness of
Seeking old and precious values,
For we are the builders of homes,
Homes for America's Future.
Homes where living will be the expression
Of everything that is good and fair.
Homes where trust and love and security
And faith will be realities, not dreams.
We are the Future Homemakers of America
We face the future with warm courage and high hopes.

The Sugar Grove Chapter emphasized the project "You and Your Values." Chapter mothers were entertained at a Mother-Daughter Banquet. The FHA also sponsored an assembly program which included a fashion show. Money making projects included serving two banquets and two Ruritan suppers.

Opportunities Like
Edison had are

**WAITING
FOR
YOU**

The inventions of Thomas Edison have affected the lives of people everywhere. They have created entire industries — ours, for example.

Under America's Free Enterprise system, inventive people like Edison can expect special compensations — profit, honor and satisfaction.

The hope of attaining such rewards has been one of our nation's greatest incentives to progress. It is a goal that prods imaginative minds in their quests for new products and methods.

Not everyone can be a Thomas Edison. However, every trained, dedicated graduate can anticipate a full measure of our society's rewards. All it takes is a willingness to work harder and contribute more.
